INTERACTIVE WEBSITE / PROJECT OVERVIEW

Construction Cost Calculator

An interactive renovation budget with an itemized cost breakdown.

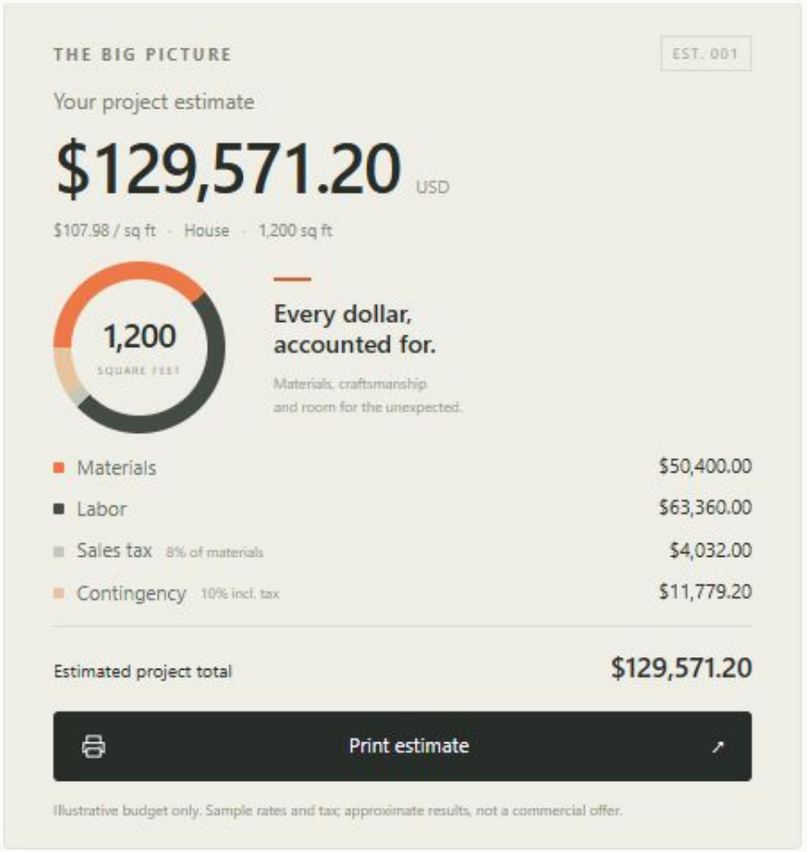

FUNCTIONAL DEMONSTRATION / SAMPLE ESTIMATE

A budget you can audit

1,200 sq ft House / Standard Renovation / Select materials
Flooring and Painting selected

Materials	$50,400.00
Labor	$63,360.00
Sample sales tax / 8% of materials	$4,032.00
Contingency / 10% including tax	$11,779.20
Estimated total	**$129,571.20**

The same space, in either unit

Switch 1,200 sq ft to 111.483648 square meters. The physical area stays the same and the estimate remains $129,571.20.

A complete printable estimate

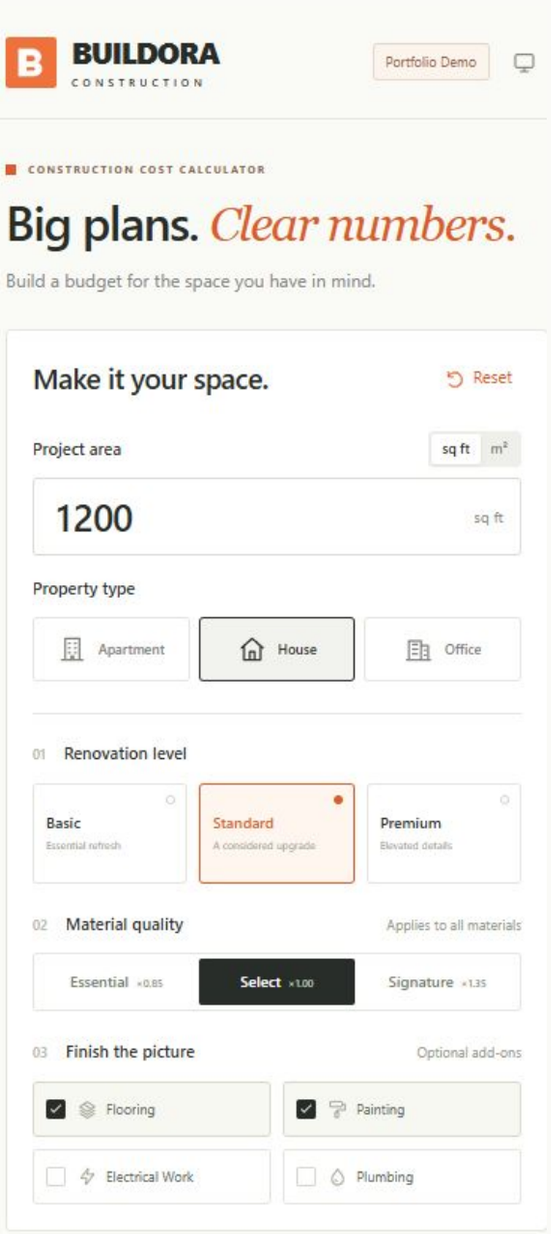

The print layout includes the selected scope, work packages, materials and labor, plus tax, contingency and the project total.

Demonstration rates only. The total includes materials, labor, sample tax and a reserve. Permits, design fees, demolition and structural work are excluded.

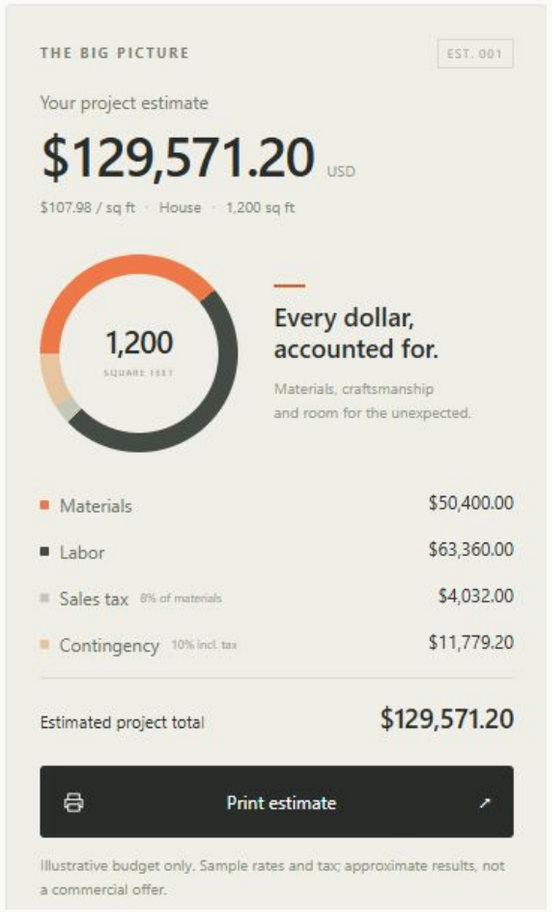

RESPONSIVE DESIGN / IMPLEMENTED FEATURES

Designed for desktop and mobile

PROJECT SETUP

COST BREAKDOWN

Configurable project scope

Choose Apartment, House or Office, then a renovation level, material quality and optional work packages.

Chart and transparent totals

Materials, labor, tax and contingency use the same amounts in the chart and the cost breakdown.

Area conversion and validation

Switch units without changing the budget. Clear field errors prevent invalid area estimates.

Independent frontend project

HTML5, CSS3 and JavaScript. Keyboard controls, local SVGs and a dedicated print stylesheet. No backend or paid API.
